Primary User Interface Modifications

• New Menu Bar at top of screen

• Logout button replaces “Search” and “Site Index” buttons

• “Responders” title removed

• Icon Key button was moved to the right hand portion of the screen (applies only to Missions)

• Icon Key color additions: The icon key was modified to reflect color coding by status
### Missions Status Color Coding

Missions Status Color Coding

- Missions Status color coding: Highlighting the status of Missions on both the Icon Key and the Missions board
  - Red: Unassigned, Assigned, or Tasked
  - Yellow: Mobilizing or Enroute
  - Green: On Scene, Demobilizing or Complete
  - Grey: On Hold or Cancelled
  - Purple: Denied
Dashboard Views – Configuration

- Once an Event has been selected for the first time (or when a user selects a new Event), the system prompts the user to configure his/her Dashboard Views.

- Dashboards can be selected via a check box and then placed onto the Top Left, Top Middle, Top Right, or Bottom portions of the screen.

- Each Dashboard View has a window available to close or minimize the application.

- Dashboard Views that are closed are added to a Catalog on the configuration screen for easy retrieval.
Dashboard Views – Configuration

Choose widgets and placement

Event: Hurricane Griffin

Catalog Zone
Select the catalog you would like to browse.
EMC Widget Catalog (8)
Dashboard Catalog (0)

EMC Widget Catalog
- SROCS Battle Rhythm
- H+ Timer
- Follow Missions and Messages
- Mission Status
- Shelter Status
- SitRep
- Total Days Activated
- Weather Alerts

Add to: Top Left | Add | Close

Top Left
Add a widget to this zone by dropping it here.

Top Middle
Add a widget to this zone by dropping it here.

Top Right
Add a widget to this zone by dropping it here.
Dashboard Views – Configuration

• Users can “drag and drop” Dashboard Views to different areas of the screen in either “Configure” or “Design” mode

• Selections are persistent through the user’s session and Event – If the user logs out, when he/she logs back in to that Event, the dashboard views reappear the way they were left at last log out

• Once all Dashboards have been selected and placed on the screen, the “View” button places the screen into a View mode
Dashboard Views – Screen after Configuration
Dashboard – Battle Rhythm

- Allows a user to view activities (meetings, conference calls, briefings) for the State EOC and to view/input activities for his/her specific Desk.
- Dashboard view will display the time, location, activity name, and owner plus additional information.
- Activities will be color highlighted as the activity nears (Upcoming = Blue, 30 minutes away = Yellow, 15 minutes away = Orange, Activity has started = Red).
Dashboard – Battle Rhythm

Event: Hurricane Griffin

- Event Date: 5/17/2012
- Title: Training Session
- Type: SERT, Desk
- Owner: EMC
- Location: Conference Room
- Reoccur: Every
- Information: Weekly Meeting

* Denotes required
Dashboard – H+ Timer

- Allows an administrator to enter an Event Name, Date/Time, and Description to start a timer for an Event.

- Original intent: Post-landfall Countdown for a Tropical Storm, but could also be used to indicate a specific timeframe after any type of emergency event.
Dashboard – H+ Timer

• The Settings button allows a user to select which Timer(s) will be displayed in the Dashboard View
Dashboard – Follow Missions and Messages

- Allows a user via a checkbox to “follow” a Mission or Information Message
- Changes to the status of the Mission or Info Message will be easily identified
- Clicking on the Mission or Info Message in the Dashboard View takes the user to that specific Mission or Information Message
- Missions and Information Messages are separated, grouped, and easily selected by clicking on the radio button at the top of the Dashboard View
Dashboard – Follow Missions and Messages

- The Settings button allows you to select via a check box which Missions and Messages you wish to follow.
- The Search box allows you to enter a partial word search to filter the list of available Missions or Messages.
- Missions and/or Messages that are followed are also depicted in a specific column on the Missions and Information Message screens.

Dashboard – Mission Status

- This view summarizes the status of Missions in a pie chart
- Mouse-over the pie “slices” to obtain numbers for each Mission Status
Dashboard – Mission Status

- Select which Missions you want to display in the pie chart by clicking on the list to the left and adding them to the list on the right.
Dashboard – Shelter Status

- This Dashboard View summarizes information from the American Red Cross National Shelter System
- Lists Open Shelters by county and distinguishes between Regular and Special Needs shelters
- Clicking on the County Name or Summary links to the ARC webpage for additional information

# of Open Shelters: 1  Shelter Population: 5

Data Courtesy of American Red Cross National Shelter System
Dashboard – SitRep

- This Dashboard View is based on information collected from EEI
- The information displayed focuses on the Status of the Emergency Event at the County level:
  - Counties at a Level I Activation
  - Counties with a specific local activation level
  - Counties under a local state of emergency
  - Counties that have issued a mandatory evacuation order
  - Counties that have issued a voluntary evacuation order
  - Status of County Offices (open or closed)
  - Status of County Schools (open or closed)
- The Dashboard View reflects the color coding scheme presented in EEI (Red = Closed or State of Emergency = Yes, Activation Levels IV and III = Green, Activation Level II = Yellow, Activation Level I = Red)
- County Listings can be filtered by State Region
- The “Report” icon to the right of each County Listing links to the most current actual SitRep posted by that County in Information Messages

Dashboard – Total Days Activated

• This Dashboard View presents information collected in the H+ Timer
• Allows an Administrator to enter a Date/Time, Event Name, Activation Level, and Description to calculate the days activated
• The Report button allows a user to run a Report by Event and/or Activation Level
Dashboard – Total Days Activated

- The Settings button allows a user to select which Timer(s) will be displayed in the Dashboard View – Authorized users may create new timers

![Dashboard interface with options to select and create timers]
Dashboard – Weather Alerts

- Allows a user to track weather warnings and watches on a county basis
- Users can link to the actual warning/watch message from the NWS feed
Dashboard – Weather Warning

Current NWS Alert: Special Weather Statement

from w.nws.webmaster@noaa.gov
Sent: 19:48 EDT on 05-17-2012
Effective: 19:48 EDT on 05-17-2012
Expires: 05:30 EDT on 05-17-2012

Event: Special Weather Statement
Alert: ...A SIGNIFICANT WEATHER ADVISORY HAS BEEN ISSUED FOR NORTHEASTERN CLAY...NORTHEASTERN BRADFORD...SOUTHEASTERN BAKER...NORTHEASTERN UNION AND EXTREME SOUTHWESTERN DUVAL COUNTIES FOR EXCESSIVE LIGHTNING VALID Until 05:30 EDT...

At 17:48 PM EDT...NATIONAL WEATHER SERVICE DOPPLER RADAR INDICATED STRONG THUNDERSTORMS CENTERED ALONG A LINE EXTENDING FROM 7 MILES EAST OF ASBURY LAKE TO 4 MILES WEST OF MIDDLEBURG TO 5 MILES NORTH OF LAKETY TO 4 MILES SOUTHWEST OF SANDERSON...MOVING SOUTHEAST AT 15 MPH. THESE STRONG THUNDERSTORMS WILL ALSO AFFECT AREAS AROUND SANDERSON...MIDDLEBURG...NAVILLE...ASBURY LAKE...LAKETY...ELLENBE AND RAIFORD THROUGH 8:30 PM EDT. EXCESSIVE CLOUD-TO-GROUND LIGHTNING CAN BE EXPECTED. POSTPONE OUTDOOR ACTIVITIES PROMPTLY. GO QUICKLY INSIDE A COMPLETELY ENCLOSED BUILDING. UNPLUG ELECTRONIC DEVICES AND APPLIANCES AS THEY ARE SUSCEPTIBLE TO POWER SURGES AND MAY BE DAMAGED BY NEARBY LIGHTNING STRIKES. REPORT DAMAGE TO THE NEAREST LAW ENFORCEMENT AGENCY OR YOUR COUNTY EMERGENCY MANAGEMENT.

Instructions:
Target Area:
- Baker
- Bradford
- Clay
- Duval
- Union
Dashboard – Reports

- Displays the reports typically run by an EMC user and saved off by name from the Reports button in EMC
- Reports displayed on the Dashboard View can be printed or exported
- Saved Reports can be launched by name from within the Dashboard View
